APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

.....This permit is issued subject to existing rights and is further
subject to revocation if and when water can be furnished by an entity
such as a water district or a municipality engaged in furnishing
water. A totalizing meter must be installed in the discharge pipe-
line, near the point of diversion, and accurate measurements must
be kept of water placed to beneficial use. It is understood that
this right must allow for a reasonable lowering of the static water
level. The well shall be equipped with a 2-inch opening for measur-
ing depth to water. If the well is flowing, a valve must be
installed and maintained to prevent waste. This source is located
within an area designated by the State Engineer pursuant to
NRS 534.030. The State retains the right to regulate the use
of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
not to exceed.....0.02.....cubic feet per second, but not to exceed
.....1.46 million gallons annually.

Actual construction work shall begin on or before.....November 27, 1975

Proof of commencement of work shall be filed before.....December 27, 1975

Work must be prosecuted with reasonable diligence and be completed on or before.....November 27, 1976

Proof of completion of work shall be filed before.....December 27, 1976

Application of water to beneficial use shall be made on or before.....November 27, 1978

Proof of the application of water to beneficial use shall be filed on or before.....December 27, 1978

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....JUL 8 1976

Completion of work filed.....JAN 3 1977

Proof of beneficial use filed.....JAN 29 1979

Cultural map filed.....
